

Does this seem familiar?

- You have increased competition
- You are not clear where you are taking your business
- It would be good to get impartial business advice
- You and your team seem to have less time
- There are opportunities you are not exploiting
- You want to achieve more profit

You are not alone

Running a business is always demanding and problematic. In such an environment it is very difficult to step back and take a good look at the changes and improvements which you know need to be made in your business. You know things need to change but where do you start?

At C.A.B. Consulting we have a team of experienced Business Advisors who have many years of practical business experience, who can quickly understand your issues and can work with you to identify the opportunities which can be explored and the issues which need to be prioritised and addressed.

It is simple to start the improvement process

We will run a workshop with senior management to develop a business improvement plan and identify and prioritise the action points which need to be taken.

The workshop takes a minimum of 3 hours, is a fixed priced of £180, with a money back guarantee.

All the information discussed is confidential and our advisors sign a non-disclosure agreement.

You have everything to gain and nothing to lose

C.A.B. Consulting has many satisfied customers and testimonials from business owners who have benefited from working with us. However if you don't believe we added 'value' during the workshop you don't have to pay the fixed price of £180.
